TAP INNOVATIONS

PREMIER INTEGRATION, STAFFING AND CUSTOM SOLUTIONS

THE Integrated Digital Toolbox partnered with TAP's Global 'Gig Economy' Resource Model eliminates and replaces Manual Efforts and SpreadSheets (MESS). This prebuilt, pre-integrated growing digital toolbox creates web, mobile, and cloud configurable and custom solutions. These are delivered faster and more affordably than traditional custom solutions and can easily scale; something that was previously way out of reach for small to medium sized organizations.

Our solutions always improve productivity, save money and position businesses for success in a short period of time.

- Bi-directional integrations
- Data transformations
- Data capture
- Bulk data loads
- Converting data into actionable information
- Reporting and analytics
- SaaS/Custom Apps
- Staff/Resources
- Infrastructure/Security
- Customer Onboarding

The TAP Innovations method to eliminate the MESS is simple, and here's how we tackle that for your organization.

"I like how quickly TAP Innovations was able to solve my data transfer and transformation challenges. What I thought would be a significant delay in my Paycor implementation turned out to be a quick fix with easy to use solutions that fit our budget."

- Pueblo Mechanical

"TAP Innovations heard our frustrations and needs, and understood the vision we had for the direction we were trying to go."

- Trish Armstrong, Director of Client Relations, MLR Tribal Solutions

"We were challenged with finding a solution that could take the place of how we manage and upload thousands of documents for our 900+ employees. Thankfully TAP Innovations came up with ideas that were affordable, and our HR team is happy with the results."

- Mary Diamond, VP Human Resources, United Building Maintenance Associates, Inc.

"TAP Innovations helped us combine business and financial information across our 7 family entertainment locations. Now we can make faster and more informed business decisions with data we can trust."

- Jennifer Espenschied, VP of Human Resources, Cinergy Entertainment

"Amazingly, TAP Innovations found an iOS Engineer in 2 hours and then our problem was solved by the engineer within 3 hours! Wow!"

- App Consultant

IDEA

HUMAN CAPITAL MANAGEMENT (HCM) SYSTEMS

As a premier system integrator we connect thousands of users to their data through integration and other data management solutions. Paycor, Viventium, Paylocity and others trust TAP Innovations to:

- Convert historical data
- Transfer employee profiles
- Integrate with a learning management or applicant tracking system

Automate employee data workflows and processes

HEALTHCARE

System interoperability is a major roadblock in information sharing for healthcare organizations. Our digital tools can be used to fill gaps where EMRs or other applications fall short, miss the mark on workflow and functionality or have long vendor roadmaps.

STAFFING

Our reliable and flexible global resource network can find quality and affordable resources for any IT, technical, support or project team within days. And unlike most staffing/recruiting firms, TAP Innovations is able to provide resources for short and fractional engagements. Our staffing model keeps your risk low and your reward high!

INFRASTRUCTURE/ SECURITY

Our digital tools are built on a mobile, web, and social platform for ease of use on any device with appropriate security and access controls. With help and training tips built into the tools, users trust our quick, efficient, and affordable solutions that support 50 to 15,000+ users for reliable infrastructure security and database integration needs.

STORAGE

Storage facilities can be managed in a single, easy to use mobile and web application for both renters and property managers. TAP Innovations accommodates storage and rental facilities through innovative technology solutions, so generating revenue can be accomplished with the click of a button.

GOVERNMENT

We make your data accessible across an enterprise so individuals, teams, and groups can collaborate at a higher level without wasting time and financial resources. Solutions are built on a cutting-edge innovative technology stack that can be easily combined to deliver innovative solutions for your government business challenges.

TRIBAL COMMUNITIES

Incorporating cloud-based technology into manual workflows eliminates the need for spreadsheets and other outdated processes. We can replace SharePoint, Word, and Excel applications which are highly inefficient and lack integration into other business systems for tribal communities.

A dedicated service team provides ongoing technical and tool support for all solutions. TAP Innovations is rooted in solving business problems with technology, turning data into actionable information and creating valuable solutions for business success.

Our unique solutions of highly integrated applications replace your MESS, improve workforce productivity and digitally transform the way you view and share data. Contact us today to get started!
