

CINERGY ENTERTAINMENT GROUP

PAYCOR INTEGRATION USE CASE

Overview

Cinergy Entertainment Group, Inc. operates seven cinema locations across Texas and Oklahoma. To streamline data transfer processes of employee punch data from Perform Time, TAP Innovations implemented sophisticated Robotic Process Automation (RPA) technology that automates data retrieval for this Paycor customer. Access to accurate, up-to-date and enterprise employee time and punch data will provide real-time visibility into company performance and financials.

Business Challenge/Problem

Manual efforts to pull and transmit employee punch data between Paycor applications are time-consuming and delay global insight into employee time and attendance hours as well estimated labor costs. Lacking the ability to automate employee time retrieval and processing, Paycor initiated TAP Innovations to integrate sophisticated Robotic Process Automation tools to streamline Paycor system performance and operations data management.

Key Digital Tools

TAP Innovations is a Paycor integration expert and in a matter of weeks, launched sophisticated Robotic Process Automation (RPA) technology and new automated document management processes.

- Paycor integration
- Automatic data pull of detailed employee time punches
- Automatic extraction of estimated time costs reports from detailed labor hours
- Automatic send to customer IT team

Through RPA, TAP Innovations can upload thousands of documents quickly and accurately to eliminate the need for manual reviews and verifications. Process automation will enable real-time access to employee hours, estimated costs and other sales reporting needs to Cinergy Entertainment teams, along with efficiencies to core workflows.

TAP Innovations' Solutions

TAP Innovations is a premier systems integrator and customer implementations expert for HR, CRM, Financial, LMS, POS, and Healthcare (EMR and PM) software companies. Solutions are easily scalable and repeatable across multiple industries including franchises:

- Bi-directional integrations
- Data transformations
- Data capture
- Bulk data loads to transfer historical data
- Actionable Information
- Easily scalable and repeatable across franchises
